**Gently remove Ferrule  
from pencil using small  
pliers. Take care not to  
bend or mis-shape the  
Ferrule.**

Carefully use the wire cutters to cut the end of your silver push pin. Add glue around the push pin and to the inside of the Ferrule. Place the end of the push pin into one end of the Ferrule. Repeat this process for the "bottom" of the can. Allow to dry.

Cut out labels, add  
glue to the back with  
toothpick and apply to  
can. Allow to dry.

Fill your dollhouse  
cabinets and  
you're done!
